

A Coal Famine in Sight!

Breezelets

Ten wives are waiting for a Georgia man to get out of jail. Another southern, mob eager to take justice into their own hands

We don't see many people running around these days complaining that they have not had their full share of colds.

Peace meetings that end in quarrels will not be likely to do much toward ending quarrels.

"Gott mit Uns" is emblazoned on Germany's banners.

But who dropped the H?

There are still people who are grumbling that Russia's millions do not advance quicker.

But surely the Bear is beating the Hun with his "pause."

In other words Henry Ford's latest important discovery is that he has enough, and that is something that few men find out so early.

We'll say this for Henry Ford: he's furnished trips to Europe to a lot of people who probably never would have seen the old country without him.

It looks as if Greece had fallen out of the proverbial "frying pan into the fire."

Recruiters' chorus: Be badged or be badgered.

"Ford sails," says a recent dispatch.

"Ford fails," will be the announcement when the peace cranks return home.

Some heads—Crowned, mutton, wooden, pin, figure, swell, bone, pudd'n, block.

Drop trifles,
Shoulder rifles,
Hurry to the ranks.
Do not dally,
Join the rally,
Earn a nation's thanks.

The soldier who carried on a flirtation through the telephone evidently was not afraid of a wire entanglement.

Chinook Breezes

The cold spell is still with us—and its hard on the coal.

Mr. and Mrs. Isbister are spending a week in Calgary.

Mr. and Mrs. Peck left on Tuesday morning for Calgary.

Mr. I Daman was a Calgary visitor for two or three days.

Mrs. Rideout and little son returned home after spending a month with her parents in Calgary.

Wheat is on the rise. Not much satisfaction when the farmer cannot sell his wheat.

Remember the literary evening on Friday. The programme is an attractive one. Don't miss it.

After the Bow-Wows!

The dog tax man is after a few of the army of stray dogs in town. License—or bow-wow will go to the happy hunting grounds at the dump heap.

Get a Wiggle On, Jack Frost!

Cheer up. In another month or so someone will be coming along to report the first spring bird sighted. The winter is on the go already if you only think so.

Are You Acquainted With This By-Law?

There is a "snow" by-law in force in Chinook. Perhaps some of our citizens do not know that—by the look of the snow heaps on the sidewalks opposite their premises.

Was Some Twirl!

The blizzard on Sunday piled up the snow drifts several feet high in some places, and causing the trains to be several hours late, on account of snow blockade on the road, along this line.

Where Did the Money Orders Go To

We notice from the Postmaster General's annual report for 1915 that there were 1949 money orders issued from the Chinook post office, which amounted to \$21,937.08; number of orders paid 252, amounting to \$6,127; postal notes paid \$761.59.

Acceptable Gifts

The Patriotic Society of Chinook wishes to acknowledge with thanks receiving of 100 picture handkerchiefs and one pair of mitts, donated by a lady of Chinook. These are left for sale at Messrs. J. R. Miller and H. C. Briggshaw's stores. C.W. Rideout, president.

MAKE HASTE SLOWLY

IN MOVING FROM THE COUNTRY TO THE CITY

DURING these hard times, one going from the country into one of the cities of this Western country, if only for a few hours, cannot help being impressed with the fact, that there are hundreds of unemployed walking the streets, and if the man from the country resides in the city a short time, he is not long in finding out that great poverty exists among a very large portion of its inhabitants, and that many go hungry day after day. And very often these conditions are not always to be found among the poorly-clad only but higher up in the social scale—and very rarely known to the outside world, but it is there all the same.

In some cases the glare and bustle, together with the supposed rapidly-gained wealth of the city, has strongly appealed to the country man, with the apparent slow-acquiring wealth of the country; and finally he has taken the plunge and hies away to the city, to find—in most cases—a little later, that his dream of rapidly-acquired wealth was no nearer, but, on the contrary, that he was farther away from his coveted goal than ever.

Of one thing we are at least certain, that many people who have left the rural districts for city life would make haste slowly if they had the opportunity of living life over again. A Southern contemporary wisely says: "Once in a while it is wise for a family to move from the farm to the city, but more often than not, a great mistake is made in doing so."

The country is being made attractive and remunerative, while the city is growing more expensive and corrupt. Why should a man leave the farm where his children can grow up into strong manhood and pure womanhood? Does he desire and expect to make more money in the city? He may be like the dense rustic who figured out one rainy day that he had walked three hundred miles cultivating one acre of corn. He then sold his farm and moved to the city, where he walked six hundred miles to find a job, and—he's still walking! How much better if he had heeded some of the proverbs he knew: "Look before you leap" and "Let well enough alone!"

THE WHEAT BLOCKADE

AND THE CHINOOK BOARD OF TRADE

Chinook, in conjunction with some of the other Boards of Trade along this line, is sending a strongly worded petition to the Dominion government at Ottawa, where our local member, J. A. McColl, is there already on the same errand, urging the government to take in immediate action to relieve the extremely serious grain blockade at Chinook, and other places. Everything possible is being done to get the relief at once. The moving of grain is at a standstill. We understand that orders have been received not to load any more cars until further notice. We all know that unless immediate relief is not given it will mean a very great loss to a large number of farmers. The price of wheat is rising, but the farmer is powerless to take advantage of the rise. He must have provisions, coal and other necessary things, and under present conditions he has to sell his wheat at whatever price he can get, which is considerably less than the present market prices. It is to be hoped that the urgency of the case and the special efforts being made will prevail upon the dominion government to devise some means to relieve the serious condition of affairs with as little delay as possible.

An Unknown Quantity

THAT CANNOT BE RECKONED WITH

Premier Sifton promises legislation at the next session that will place Alberta women on an absolutely equal voting equally with the men, even to the holding of an elective office. Which means that the women will have a vote at the next provincial election and that Premier Sifton is very naturally expecting that they will not forget the party which gave them the vote.—Calgary Herald. Gladstone gave Great Britain universal suffrage, and at the general election which followed shortly after, the new electors turned Gladstone and his party out of office by an overwhelming majority.

The kicker is not a very sociable mutt, but you will have to give him credit. He is always starting something. If it were not for the kicker we might be living in caves to-day and feel satisfied with our lot.

THE U.F.A.

AND THE GRAIN BLOCKADE

Among the many subjects that were discussed during the U.F.A. convention held at Calgary last week, was one the great importance to the farmers of Chinook, and in fact, all along the Goose Lake line, particularly at the present time, and that was the Grain Blockade, which is now assuming graver proportions every day. The question came before the convention in the form of a series of resolutions from our own immediate neighborhood, and were as follows:

Coliholme Union—"Whereas, the farmers living adjacent to the different lines of the Canadian N. Railway in the Province of Alberta are suffering from the inability of that railway company to handle the grain crop, and

"Whereas, practically every elevator and vacant buildings in the towns on that railway are filled with grain and thousands of small warehouses have been built by farmers to meet the emergency, and

"Whereas, not more than twenty five per cent. of the grain crop on that line has as yet been marketed, and

Whereas, the Canadian Northern railway company with its present equipment cannot possibly handle the situation in time to give the necessary relief to the sufferers:

Therefore be it resolved: That the United Farmers of Alberta in annual convention assembled do hereby instruct its officers to immediately take this matter up with the Dominion government by sending a delegate to Ottawa, if deemed advisable and devise some means whereby relief can be secured, either by working out a plan for the distribution of cars from other railway lines which may be available, or by any other sure method which may be acceptable:

Further, that the directors take this matter up with the governments of Alberta and Saskatchewan, and with the farmers' organizations, and secure their co-operation.

Delegate J. A. McColl said the situation of the Goose Lake line was the most serious which had ever developed. There was an absolute blockade on the road. He was not here to condemn the railway, but the line could not handle the grain. They had to

COAL SHORTAGE

SITUATION GETTING ACUTE

Another outcome of the car shortage is one of even more serious than the shipping of grain at the present moment, and that is the coal shortage. Locally, unless a supply of coal arrives pretty soon the conditions here will be of a very serious nature. With the thermometer dipping down to 30 and 40 below zero, the household coal bins are nearly empty. The local dealers are all in, the prospect is anything but cheering. The Drumheller mines have only been worked to about a quarter capacity owing to lack of cars, in addition to the general tie-up on this line. Some of the towns have been without coal for several days now, and Cereal being mentioned as being among the number. It is to be hoped that the situation will be speedily relieved.

supply Saskatchewan with coal also.

He suggested the surplus cars from other lines being taken in to relieve this. If the crop was to be got out this year there had to be some improvement. He was going down to Ottawa to take the matter up with the authorities and the people out on that line would appreciate the support of the convention.

Delegate Brown said at the rate cars had been furnished since September, it would take two or three years to move the crop, at the rate in December it would take four or five years. Some farmers there had not had a crop in 1914, and they needed the money. He suggested Intercolonial and Transcontinental cars be sent into the C. N. R.

A delegate said the congestion was general. If the cars were taken from other lines they would be just as badly off as the C. N. R.

A delegate from the C.N.R. section answered the previous speaker by saying that in the former instance it was a temporary one—on the C. N. R. it looked as though it was to be eternal.

The motion was then carried endorsing the resolution and pledging the support of the convention to J. A. McColl, M. P., who is to go to Ottawa.

Mr. J. McColl, M. P., is in Ottawa at the present time looking after the above.

SYNOPSIS OF CANADIAN NORTH- WEST LAND REGULATIONS

THE sole head of a family, or any male over 18
years old, may homestead a quarter section
of available Dominion Land in Manitoba,
Saskatchewan or Alberta. Applicant must appear
in person at the Dominion Lands Agency or
Sub-Agency for the District. Entry by proxy may
be made at any Dominion Land Agency (but not
Sub-Agency), on certain conditions.

Duties—Six months' residence upon and cultivation
of the land in each of three years. A homestead
may live within nine miles of his homestead
on a farm of at least 80 acres, on certain conditions.
A habitable house is required, except where residence
is performed in the vicinity.

In certain districts a homesteader in good standing
may pre-empt a quarter-section alongside his homestead.
Price \$200 per acre.

Duties—Six months residence in each of six years
after earning homestead point; also 50 acres, extra
cultivation. Pre-emption patent may be obtained as
soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead
right may take a purchased homestead in certain
districts. Price \$3.00 per acre. Duties—Must reside
six months in each of three years, cultivate in acres
and erect a house worth \$200.00.

The area of cultivation is subject to reduction in
case of rough, scrubby or stony land. Live stock
may be substituted for cultivation under certain conditions.

ROLLINSON

SOME NEWSY LITTLE ITEMS

K. R. Chisholm made a trip to
Chinook on Wednesday.

Mrs. Geo. Johnson returned
from Regina on Wednesday.

Miss Eva Daly of Saskatoon is
with her brother, Vincent, for a
few weeks.

Samuel Daly, who enlisted a
few days ago, is now in Toronto
with the 98th.

C. C. Wilson has been canvass-
ing the country, to see who
wants a railroad.

A big time is expected at the
Sedalia Hall on Feb. 11. The
Sedalia U.F.A. are giving a
dance, the proceeds to be
donated to the Patriotic and
Red Cross funds.

The Woman's Institute gave
a Bobbie Burn's supper and
dance. The supper consisted of
haggies and other Scotch dishes.
The crowd was small owing to
the cold night, but a good time
is reported.

The Little Gem Live Stock As-
sociation held their annual meet-
ing at Geo. Johnson's on Saturday
Jan. 22nd. Officers were elected
for the coming year, and after
the business was attended to a
very enjoyable evening was spent
at cards.

Chinook Breezes

Train time—any old time now

Mr. H. C. Brighinslaw was a Calgary visitor for a few days this week.

W. R. Wright left this morning for Thornbury, Ont., where he will visit friends for a few weeks with Mrs Wright, who went there a few weeks ago.

All our exchange reports very severe weather, which seems general all over the West, and a number of deaths are reported through freezing.

Last week, the public schools were well banked up and a new door put in and a vestibule added to the senior room, which, the kiddies say, is a great improvement to the warmth of the room.

MORTGAGORS

MAY GET STAY OF PROCEEDINGS

People who have mortgages on their property against which an order for sale has been made in foreclosure action, will no doubt be interested to know of an amendment, which the Land Titles act under which the foreclosure proceedings are usually carried out, by which the mortgagor may secure a stay of proceedings.

By this amendment, which is subsection 18 of section 63a of the Land Titles act, it is provided that the mortgagor may appeal to the master-in-chambers, L. F. Clarry, and upon setting forth grounds which appear to order staying the sale of his property for whatever length of time the master may decide the circumstances warrant.

It is not necessary to be represented by a solicitor when making this application as the mortgagor may appear in person, and it is worth noting that such applications are according to the rules of court heard between the hour 10 a. m. and 10.30.

To the poor man who is having a hard time from sickness or other cause in making payment on his mortgage and against whom foreclosure proceedings have been started this appeal to the master under the Land Titles act will give relief, and it may be obtained without any red tape or formality by laying circumstances before Master Clarry at the court house, Calgary at the time stated
